Portfolio:
IKORODU, LAGOS STATE, NIGERIA

PROFESSIONAL SUMMARY

Computer Science graduate with hands-on full-stack experience in React, JavaScript (ES6+), HTML5, and CSS3. Delivered a full-stack e-commerce platform (React + C#/.NET API), a live business website, and a Python/Flask ML application. Skilled in responsive UI, form validation, REST integration, and accessible, cross-browser UX. Seeking a junior full-stack role to contribute to real-world products while growing under experienced engineers

SKILLS & ABILITIES

- **Programming Languages:** JavaScript, C#, Python
- **Frontend Development:** React.js, HTML5, CSS3, Bootstrap, responsive web design, Flexbox, CSS Grid
- **Backend Development:** C#/.NET fundamentals, ASP.NET Core Web API, Python/Flask, API integration
- **Tools and Platforms:** Git, GitHub, Visual Studio Code, debugging
- **Website Administration:** cPanel, domain and hosting management, email configuration

EXPERIENCE

April 2024 – Oct 2024

Alliance Consulting and Digital Solutions
IT / Frontend Development Intern

- Designed and developed a contact page from scratch using HTML, CSS, and JavaScript.
- Implemented responsive layouts to support usability across different screen sizes.
- Added client-side form validation to improve input handling and user feedback.
- Gained practical exposure to cPanel, website hosting, domain management, and email configuration.

EDUCATION

2021 - 2025

Bachelor of Science (B. Sc.) in Computer Science
Caleb University, Lagos, Nigeria

CERTIFICATIONS

- IBM Web Developer Certificate — Coursera
- CSS Certificate — Linkedin Learning

CORE STRENGTHS

- Full-Stack delivery — shipped a React + .NET e-commerce platform end-to-end, from UI to API integration.
- Fast cross-stack learning — picked up Python/Flask and scikit-learn outside coursework to build and deploy an ML application.
- Multi-project ownership — concurrently maintained the e-commerce app, a live business website, and an academic ML project through completion.
